

## **DISTRICT PARTNERS TO SEND THREE TEACHERS TO ENVIRONMENTAL WORKSHOP**

During the first half of 2001, the AVAPCD joined forces with Lockheed Martin Aeronautics and the Los Angeles County Sanitation District to send three local teachers to Keystone Science School's *"Bringing Environmental Issues to the Classroom."* John Grove from Park View Intermediate, Keleen Wrighten from New Vista Middle School and Carla Recher from Piute Middle School, pictured in this photo, participated in the training session this past summer, which was held in Racine, Wisconsin.

All three teachers from the Lancaster School District attended an orientation meeting hosted by Lockheed Martin along with Lancaster School District Assistant Superintendent Howard Sundberg. On June 11<sup>th</sup> a press conference was held to announce the sponsorship at New Vista Middle School in Lancaster. As Mayor of Lancaster, AVAPCD Board Chair and County Sanitation Board member, Frank Roberts was the keynote speaker, shown here at the far right.
